

Project Write Up

1 Outline

Please write a general overview explaining the structure of your report. This can be brief (one paragraph), but it should make it clear how the report is structured. The overall length of your report must not exceed 5 pages (including figures, algorithms, tables, and references). This report is structured as follows: I will provide a brief overview of the the written project in Section ???. Then I will explain how I would suggest you use your time to achieve a good write up in Section ??, and finally I will explain and illustrate the marking scheme in Section ??

2 Yao's protocol

This project covers the Yao's protocol; more precisely the *Secure Multi-Party Computation*. The request was to implement a program for which two user can sum up their values without sharing them with the opposing party.

3 Real word application

4 Ethical, Legal and Social aspects

5 Final considerations
